

Did you miss out on the on-site Health Screening? There is another option!

Wellness Qualifications - Incentive to Participate

This year completing all three wellness qualifications will be beneficial to you no matter which health plan you choose.

Completing the online health assessment, health screening and 100 wellness points by March 31, 2017, will qualify you for

- the \$750 deductible plan in FY18* or
- the maximum contribution by the state to your Health Savings Account (HSA), if you choose the \$1,800 high deductible plan for FY18*; (\$500 single coverage, \$1,000 family coverage).

Login to benefit.staywell.com to register and learn more about how to complete the qualifications.

*If your spouse is on your health plan, both you and your covered spouse must complete the three qualifications to be eligible. Employees hired or spouses added on or after July 1, 2016 and Opt-Outs do not need to complete these qualifications during FY17 (July 1, 2016-June 30, 2017) to be eligible for the lowest deductible health plan or the maximum HSA contribution in FY18.

Members who missed the on-site health screening opportunities can still meet the screening qualification by going to their health care provider.

Members receive one annual wellness preventive exam covered by the health plan each plan year. The cost of the screening tests will only be covered if it is part of an annual wellness preventive exam. Employees that have opted out of the state insurance are not eligible.

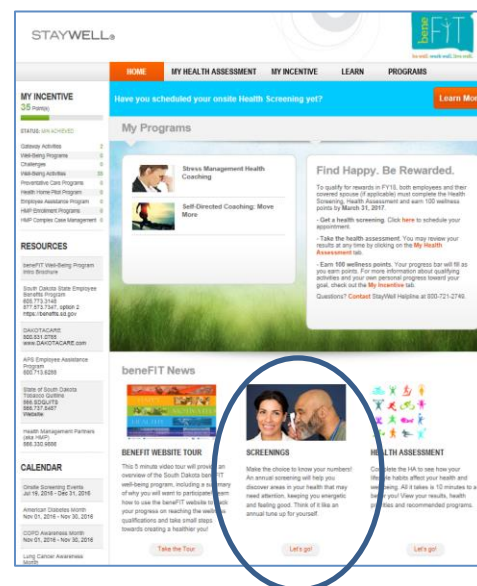

The [Health Care Provider Form](#) can be found at benefit.staywell.com. Members must download the customized form because it includes personalized information. The health care provider will fill in the test results and sign the form. It then needs to be returned by mail or fax to the address listed on the form.

If a member has already had screening tests taken by their provider since April 1, 2016, the form can be completed by the health care provider using data from screening tests conducted during that visit. Not all data pieces are required.

The cost of the lab tests will only be covered if it is included as part of an annual preventive wellness exam. For example: If a member makes an appointment only to do the lab tests, the cost will not be covered by the health plan. If a member requests screening tests at any other type of appointment that is not an annual wellness preventive exam, the costs will not be covered by the health plan.

Instructions

- Go to benefit.staywell.com.
- Select "Screenings" under beneFIT News.
- Click on Health Care Provider Form.
- Print the form customized with your name.
- Take the form to your health care provider.
- Health care provider enters results for any tests completed.
- Fax or mail to the address on the form.
